

Beacon Park Road
has lost many of its
trees over
the years...

Beacon Park Road

Restoring its trees

Plymouth Tree Partnership, (PTP), believes Trees matter! And make a vital difference to the way streets look and feel.

Many trees on Beacon Park Road have been removed or are in poor condition. There is an opportunity to replace some of these trees.

PTP, a charity focusing on trees, works with communities and Plymouth City Council to plant trees and create good quality places.

Reasons for trees.....they

On streets with trees people tend...

- ❖ Look good
- ❖ Give shade and privacy
- ❖ Absorb rain.....and carbon
- ❖ Cleanse the air
- ❖ Absorb sound
- ❖ Attract birds and pollinators

DRAFT

- ❖ To have better wellbeing
- ❖ To feel younger
- ❖ To be happier
- ❖ House values are higher
- ❖ Crime /antisocial behaviour tends to be lower.

PTP, on behalf of **Plymouth and South Devon Community Forest**, proposes some replacement planting on Beacon Park Road this autumn.

- Would you support this?
- Would you like to be involved?
- Could you make a financial contribution?

For questions or comments about the project, contact **James Brown**: project coordinator
