

Wilton Street restoring its trees

Wilton Street has lost many of its trees over the years, but....

There is opportunity to replace some of them.

Plymouth Tree People, (PTP), formerly Plymouth Tree Partnership, believes Trees matter! And make a vital difference to the way streets look and feel.

PTP, a charity, works with communities and Plymouth City Council to plant trees and create good quality places.

Reasons for trees.....they

- ❖ Look good
- ❖ Give shade and privacy
- ❖ Absorb rain....and carbon
- ❖ Cleanse the air
- ❖ Absorb sound
- ❖ Attract birds and pollinators

On streets with trees people tend...

- ❖ To have better wellbeing
- ❖ To feel younger
- ❖ To be happier
- ❖ House values are higher
- ❖ Crime /antisocial behaviour tends to be lower.

Wilton Street restoring its trees

If you have questions or comments, contact
James Brown: project coordinator.

It is helpful if you give a house number, or say
which side of Wilton Street you live: ie

A Victoria Park side or B Co-op side

- Mail: **Plymouth Tree People**, Poole Farm, Leigham, Plymouth, PL6 8NF
